PEDIATRIC RADIOLOGIST

Jefferson Radiology, established in 1963, is a 60+ physician-owned subspecialty group practice in Hartford, CT. The all-digital practice, with enterprise PACS capabilities, interprets close to one million exams a year. Jefferson Radiology has multiple offices and hospital partnerships throughout Connecticut and Western Massachusetts including Connecticut Children's Medical Center. Employee or partnership-track options are available based on mutual needs of candidate and group.

This is a unique opportunity for someone interested in enhancing a prestigious and vibrant group. The pediatric section is staffed by a core of radiologists with expertise in pediatric imaging including 3 CAQ pediatric radiologists with additional comprehensive support from a team of subspecialty radiologists. Radiology residents from Hartford Hospital, the University of Connecticut and St. Vincent’s Hospital receive their pediatric radiology training at Connecticut Children's Medical Center. The candidate will work closely with the pediatric medical and surgical specialists at Connecticut Children's Medical Center with opportunities for collaborative research and education available.

Jefferson Radiology offers the full spectrum of diagnostic imaging and interventional services. As leaders in diagnostic imaging and interventional radiology, our fellowship trained physicians and highly trained staff are committed to providing exceptional patient care and responsive service. Our clinical resources, supported by a sophisticated business and technological infrastructure, allow us to provide the highest quality care. In addition to MQSA, ACR and ICAVL accreditation, we are Joint Commission accredited. Further, we were named by Radiology Business Journal as one of "The Fifty Largest Radiology Practices" in the country.

**NOTE:** It is strongly encouraged that all applicants attach their CV and email address when applying.
