Once you are logged into your account, your screen will look like the below with a list of the studies that have been shared with you.

The screenshot displays the Jefferson Radiology Image Exchange interface. At the top, the Jefferson Radiology logo is on the left, and navigation links for 'Studies' and 'Messages' are in the center. On the right, there are links for 'Help', 'Lisa Castle' (with a profile icon), and 'Sign Out'. Below the header, the 'Studies' section is titled, followed by a '+ Add a Study' button. A table lists the studies, with the first entry being 'TEST ^ TEST' (F) DOB 04-02-1986, MRN X107634ECHIN. The study details include 'BONE ^ LOWER EXTREMITY', 'PR 0 images', and 'Acc#: RPhys: Sarkar ^ Gopal'. The date and time are '08-31-2021 12:29 PM'. To the right of the study details are three icons: 'Image' (with an eye icon), 'Reports' (with a document icon), and 'Download' (with a cloud icon). Two orange arrows point to the 'Image' and 'Download' icons. A 'Share' button with a right-pointing arrow is also visible. At the bottom right, there is a pagination control showing '< Prev', 'p. 1', and 'Next >', along with a dropdown menu set to '100 items per page'. Below the pagination, it says 'showing 1 study' and 'detail report'.
